MEMORANDUM FOR THE RECORD

SUBJECT: Director's Conversation with Senator Milton Young
Regarding Vote on Symington Amendment

25X1 The Director told me today of his phone call yesterday to Senator Milton Young (R., N. Dak.) to thank Senator Young for his assistance in defeating the Symington amendment, which would have imposed a [REDACTED] ceiling on the budget for the intelligence community. Senator Young commented that he had taken the matter up in the Republican Policy Committee and noted with some pride that only three Republicans had voted for the Symington amendment. He said he hoped this would discourage Senator Symington from further attacks on the intelligence community.
